Subject: RE: Plans to return a few GM vehicles

Good morning David,

I'll investigate.

Thanks,

Vince Mazaitis

Subject: Plans to return a few GM vehicles

Vince,

Dan and I wandered around the laboratory and the parking lot and have identified a few GM vehicles that we believe we can return. As I do not know our procedure for returning cars (and I think it is different for official confirmatory vehicles versus diesel screening vehicles) I thought I would forward you the list of vehicles first, to assist with the process and to ensure that we have completed all our testing prior to contacting GM.

The vehicles I believe we can return are –

C5C32350, Silver 2500 Silverado parked outside and I have the keys at my desk;
161HPV4318, Chevrolet Cruze EDV in the laboratory and I don't have keys;
C7K81239, Silverado parked outside and I do not have keys; and,
T7K64000, Black GMC Sierra parked outside and I do not have keys.

Let me know if you are aware of any additional testing planned for these vehicles, if not, we can complete whatever paperwork needs signing and then contact GM to pick the vehicles up.

Also, let me know if there are any other considerations about these vehicles which I may not be aware of that would be reason for us to keep the vehicles here.

Thanks,

David
